RECORDING OF TELEPHONE CALLS

If you hear a short "beep" tone on your telephone about every 15 seconds, it means that the person with whom you are talking is recording your conversation. The signal is provided by the telephone company for your protection. Use of a recorder without this signal is unlawful. If you do not want a record made of what you are saying, ask the person with whom you are talking to disconnect the recording machine. When he disconnects it, you will no longer hear the "beep" tone.

HOW TO USE YOUR NEW CUSTOM CALLING FEATURES

THREE-WAY CALLING

Allows you to add a third party to a previously established connection. If either party hangs up after the conference, you are still connected to the remaining party.

1. To initiate three-way calling, depress and release the hookswitch to put the original party on hold. Listen for three bursts of dial tone followed by a steady (normal) dial tone.
2. Dial the number of the third party. When this party answers you can talk privately. When you are ready to establish the conference connection, depress and release the hookswitch. Note: if the third party does not answer or the line is busy, depress and release the hookswitch and you are reconnected to your original party.
3. When the original party hangs up, all parties are disconnected and the call is completed.

CALL FORWARDING

Automatically forwards your calls to another location when you plan to be away from your telephone for an extended period of time. Note that you, not the originating party, are billed for any toll charges when the forward-to number is outside the local area.

1. To activate this feature dial *72 and wait 4 seconds* for dial tone; then dial the forward-to number and wait 4 seconds* for 2 bursts of dial (confirmation) tone. The called number is stored and call forwarding is activated. If you wish to call the forward-to number to notify the party of the call forwarding condition, wait another 4 seconds and the call will be placed.
2. To deactivate this feature and restore normal service, dial *73 and wait 4 seconds* for 2 bursts of dial(confirmation) tone; then hang up.

SPEED CALLING

Lets you store 8 frequently called numbers and place such calls by dialing one- or two-digit codes. This includes long distance numbers that are accessible by direct distance dialing.

1. To enter a speed-calling code, dial 74 and wait 4 seconds for a dial tone.
2. From the available code numbers, dial the code number you wish to substitute for the directory number.
3. Dial the directory number to be stored that corresponds to the code number selected in step 2 and wait 4 seconds for 2 bursts of dial (confirmation) tone; then hang up.
4. Repeat steps 1 through 3 for each number to be stored, using a different code number each time. If you wish to replace a previously stored number with a new one, repeat steps 1-3.

To use a speed calling code that has been programmed for your telephone, dial the selected number and wait 4 seconds for the call to be placed.

CALL WAITING

Informs you that another party is trying to contact you while you are engaged in a telephone conversation. You can answer the incoming call and talk privately without losing the original party.

1. When you are notified of an incoming call by a call waiting alert, depress and release the hookswitch to put the original party on hold. You are then connected to the calling party.
2. To alternate between parties, depress and release the hookswitch once for each transfer. Note: each conversation between you and one of the other parties is private.
3. If you wish to end the original conversation when you hear the call waiting alert tone, simply hang up. Your telephone then rings and you are connected to the calling party.

These and other special features are offered to customers who pay for Touch Tone Service. At the present time, no charges are billed for these features. When the Valliant Telephone Company can apply for and obtain approved rates from the Oklahoma Corporation Commission, notice will be given to customers who are using these features. If for any reason the customer does not wish to keep these special features when rates are established, the telephone company will remove them at no cost to the customer. If the customer wishes to keep the special features, he will be informed of the monthly rate before the charges are added to his phone bill.

If you are interested in obtaining these features or would like to discuss them, call the business office weekdays between 8:00 A.M. and 5:00 P.M.

TIPS FOR PREVENTING

CHILD ABDUCTION

Many abduction attempts...

- Involve a suspect driving a vehicle
- Occur when the child is traveling to or away from school
- Occur between 2 p.m. – 7 p.m.
- Involve girls and children between the ages of 10-14

The top five methods used during abduction attempts are...

- Offering a ride
- Offering candy or sweets
- Asking questions
- Offering money
- Offering, looking for or showing an animal

- Know the routes your children take, especially to and from school. Practice walking the routes with them so you can point out places they should avoid or where they can go for help.
- Talk to your child's school or day care facility about its pickup policy. Be clear that no one should pick up your child without your permission. Ask to be contacted immediately if someone else tries to pick up your child.
- Use role-playing scenarios to help children learn how to recognize and respond to risky situations. For example, have children practice yelling, kicking, pulling away or otherwise attracting attention when grabbed or approached by someone they do not know.

- Teach your child about the methods would-be abductors use. Have your child practice responding to the tricks by saying "no," walking away and telling a trusted adult immediately.
- Prepare children to act when you are not with them. They should know their full names, home addresses and telephone numbers, and how to dial 911.
- Keep a child identification kit, which includes a recent color photo of your child and descriptive details such as age, height and weight. For more information about creating a kit visit www.missingkids.com/ChildID.

RETHINK "STRANGER DANGER"

- ***DON'T SAY:*** Never talk to strangers.
- ***SAY:*** You should not approach just anyone. If you need help, look for a uniformed police officer, a store clerk with a nametag, or a parent with children.
- ***DON'T SAY:*** Stay away from people you don't know.
- ***SAY:*** It's important to get my permission before going anywhere with anyone.
- ***DON'T SAY:*** You can tell someone is bad just by looking at them.
- ***SAY:*** Pay attention to what people do. Tell me right away if anyone asks you to keep a secret, makes you feel uncomfortable, or tries to get you to go with them.

If your child is missing, contact your local law-enforcement agency immediately.

Then make a report to the National Center for Missing & Exploited Children® at:

1-800-THE-LOST® (1-800-843-5678).
